120+

BOYUM SOLUTIONS

B1 Usability Package, B1 Print & Delivery

FEATURED PARTNER

Vison33 UK

Hanmere Ployhtene Ltd is a leading manufacturer of recyclable polythene packaging in the UK, offering a wide variety of solutions to multiple industries. The company provides polythene bags, sacks, liners, sheets, and tubes made from virgin food grade polymers to customers across the globe, for direct and indirect food contact, animal feeds, horticulture, medical devices, textiles, furniture, aggregates, and everything in between.

Customer Challenges

- There were no real solutions within or as add-on to deal with their company's printing requirement.
- Previous software required a flat text file as an input and each time Microsoft updated .NET, the driver failed.
- Any changes to the output documents required many days of coding and testing.
- Additional information required by customers or legal requirements became major projects.

Solution

- Immediate visibility of Sales Order Information including individual sales manager information and market sector data.
- Visibility of Production capacity, planning and performance information, including drag and drop production scheduling.
- Visibility of Finished Goods and Vehicle loading.
- Immediate visibility of Stock data and transport performance.
- Item placement tool and the validation system.

Results

- Viewing user-defined fields in a logical and readable manner.
- Validating data entry.
- The automatic calculation and inclusion of Price per Tonne data.
- Simplification of Receipts from Production and Goods Receipt PO process.
- Visibility of financial information including debt recovery data and performance.

"B1 USABILITY PACKAGE B1 PRINT + DELIVERY, HAS ALLOWED US TO DEVELOP SAP BUSINESS ONE INTO A HIGHLY BESPOKE SYSTEM WITHOUT THE NEED FOR BESPOKE ADD-ONS"

Guy Reynolds / IT Manager
