## BOYUM SOLUTIONS

B1 Usability Package

## FEATURED PARTNER

Seidor Africa

MACS Cool is a Refrigeration Spare and Air-conditioning Wholesaler, based in South Africa, with a national footprint of 7 branches; and a dedicated export division. They also supply products and services over the border into neighboring states. The company was established in 1986, and the refrigeration division moved from being a primary Refrigerant Gas Wholesaler, to competent spares and OEM business in the early 2000s.

## Customer Challenges

- The legacy addons needed support and updating for them to move to SAP Business One V10. The developers of these add-ons were long gone and the support non-existing.

## Solution

- The Addons included Inter-Branch Transfer, stock taking, and credit note addon which facilitates credit note creation from closed invoices.
- The impact of not having these add-ons would have been felt from finance to operations, between head-off and stores.
- Easy to understand and efficient admin functions.

## Results

- The add-ons have been systematically replaced.
- Initial cost saving was significant when looking at the purchase of the B1UP licenses vs the developments.

**"BOYUM HAS RELEASED OUR INTERNAL POTENTIAL AND PUT THE POWER OF LIGHT DEVELOPMENT INTO OUR HANDS."**

Celest Boshoff / SAP Business One Administrator/Support
