“
I recommend to anyone using or contemplating using SAP Business One that B1UP is a must in order to maximise the investment in ERP, as it adds a lot of intrinsic value. With B1UP, you are able to truly realise a positive return on investment.
 ”

James Liu,
 Head of Finance & Supply Chain

“
If you are not using B1UP you are not using more than 50% of the functionality available in standard SAP Business One.
 ”

Ketan Solanki,
 Head of SAP Business One
 FUJIFILM MicroChannel

Challenges

- Legacy accounting system lacked investment in cutting-edge technology, impeding adaptability and hindering future business expansion.
- Manual processes and lack of automation stifled agility, making it challenging to meet market demands efficiently.
- Inadequate data access hampered decision-making, leading to reliance on outdated information and impacting vital business departments.

Solution

- B1UP proved instrumental in resolving business challenges, offering a faster, more powerful, and dynamic deployment that tailored the system to the business needs without requiring custom development. Its functionalities, such as real-time reporting, inventory tracking, and flexible ERP customisation, addressed the specific needs of sales, procurement, and customer service departments.

Results

- Sales department gained real-time reporting, inventory tracking, and accurate delivery date information.
- Intuitive, and interactive reporting, reducing reliance on custom reports and streamlining processes.
- Faster problem resolution and fewer customer follow-ups ultimately improving the level of customer service provided.
