Vision33 UK

Strata Products **obtained significant improvement in production processes** with Boyum products

Strata Products is a leading UK manufacturer of home, office, and garden plastic products. Based in Nottinghamshire with circa 320,000 square feet, their state-of-the-art factory operates 24/7 with over 40 machines for injection molding, blow molding or rotationally molding high-quality and innovative products for their global customer base. They are market leaders in many of the product sectors in which they operate and have won numerous awards from their blue-chip customer base and also recognized industry bodies.

Customer Challenges

- Lack of accountability and accuracy.
- Duplication of effort. Scrap and variance were costly.
- Production staff, and ultimately finance department was affected by the challenges.

Solution

- Accuracy and efficiency with Produmex.
- Traceability, visibility, and accountability.

Results

- Significant improvement in Production. As are warehousing and finance.
- Fewer write-offs, and increased customer performance.

"BOYUM PRODUCTS HAVE CHANGED THE WAY WE WORK FOR THE BETTER."

Akbar Gambari / Business System Analyst
